

Dear TDMAW Members:

The Board of Directors of the TDMAW is proud to recommend Federated Insurance as our exclusively recommended insurance and risk management provider for property & liability, workers compensation, and financial protection services. The most significant factor for recommending each of these programs is excellent service and quality coverage backed by competitive pricing.

Federated Insurance is recommended by hundreds of associations like ours for their members' insurance needs, and we feel that the time you spend with your local Federated marketing representative will be time well spent. Federated provides the following services to you and your business:

*Property & Liability, Workers Compensation*

Federated's superior coverages and commitment to loss control management make this an excellent package.

*Financial Protection Services*

Whether you want protection for your dependents against unanticipated personal emergencies, or assistance in planning the eventual transfer of your business to family or employees, Federated can help. It pays to plan ahead!

You don't have to be insured with Federated to benefit from this partnership. Complimentary risk management seminars, access to industry-leading risk management materials, a no-obligation review of your current insurance program, and more are yours just for being a member of the TDMAW.

We encourage you to contact your local Federated marketing representative for more information on how they can help you and your business succeed. Visit [reps.federatedinsurance.com](http://reps.federatedinsurance.com) to locate your today!

Sincerely,

Laura Gustafson  
Executive Director
