

Core Values

Passion for Industry

We believe all members should enthusiastically demonstrate machining excellence, development of their companies and their employees for the betterment of Wisconsin.

Integrity

We believe that all members exhibit moral and ethical standards that will foster trust between employees and employer, as well as maintain strong relationships between member businesses.

Pride in Workmanship

We believe TDMAW members will consistently strive to produce the highest quality goods to exceed customer expectations and to uphold the outstanding reputation of TDMAW.

Advancement through Education

(member representatives, employees, future employees)

We believe in providing quality educational programming to enhance the member experience. Such programming includes training with such depth and breadth to not only grow the Member Representative, but also his/her fellow employees and the future employees of the industry.

Collaboration

As a TDMAW member, I will develop relationships with other TDMAW members to share best practices and to help other members succeed.

Are you a corporation or business entity with operations located in Wisconsin who engages in the business of metal machining? An individual with an interest in manufacturing or a student, apprentice or intern with an interest in manufacturing?

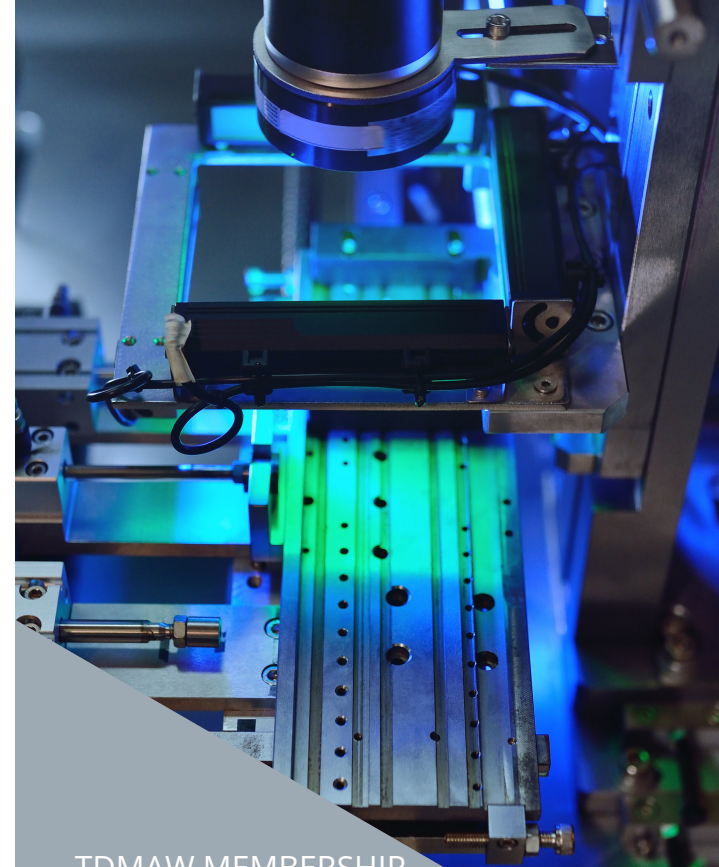

Join the TDMAW and gain access to resources and opportunities:

- Be a part of the only statewide organization acting as a unified voice to promote the lifelong rewards of a career in the manufacturing industry
- Build professional networks through monthly technical meetings & social outings
- Improve your bottom line through special relationships with our Partners and Sponsors
- Advertise new capabilities/services or equipment for sale, for FREE, in our quarterly magazine Surgeons of Steel
- Increase your Internet presence via the Member Directory
- Support student education through apprenticeship, scholarships, career fairs and the BotsIQ robotics program.

Workforce Development

To give Wisconsin manufacturers a regional and global advantage, TDMAW supports:

- The Tool, Die and Machining Association of Wisconsin Forward Foundation, a charitable nonprofit supporting manufacturing and manufacturing education.
- Wisconsin Apprenticeship programs for Tool & Die, Machining, Welding and a variety of other apprenticeship training.
- TDMAW continues to foster and grow relationships with local schools and state technical colleges.
- Plant tours for grade school, middle school, high school and college students, teachers and parents.
- BotsIQ Wisconsin robotics program
- Skills USA
- Student Career Fairs
- GPS Education Partners, alternative education combining high school classroom learning in a work setting.

Membership Types

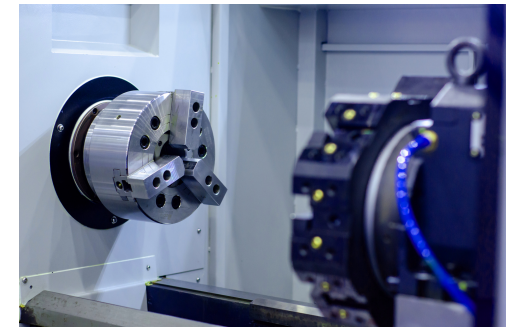

- Company Tool, Die & Machining Association Membership
- Individual Tool, Die & Machining Membership
- Student Membership

Visit our website for details and applications.

Networking & Business Development

TDMAW hosts regular informational and educational member meetings and social outings to help you develop new, and foster existing business relationships.

- Share information among peers in your industry to help you find solutions to your business challenges.
- Learn more about TDMAW Partners and Sponsors and how they can help you grow your business.
- TDMAW.org is a one-stop shop for industry news, community resources, events calendar and member capabilities.

Impact

- TDMAW's Forward Foundation is a charitable organization supporting manufacturing and manufacturing education.
- TDMAW offers scholarships to assist students enrolled in Machine Tool Operations, Tool Design and other Tool & Die programs.
- The TDMAW donated to Waukesha County Technical College (WCTC) for their \$4 million dollar Integrated Manufacturing Center (IMC). This center helps provide additional schooling and training for manufacturing jobs in Wisconsin—schooling and training for our future employees!
- TDMAW donated to make MATC's ECAM building (Energy Conservation and Advanced Manufacturing) a reality. ECAM is designed to answer the increasing challenges facing manufacturers in Wisconsin.
